|  Sigachi Industries Ltd. | Title | WATER STEWARDSHIP POLICY | | |
| | Format No. | SC/ESGP/005 | Effective Date | 04.04.2025 |

Sigachi Industries Limited is committed to conducting its business in a responsible and sustainable manner. By minimizing environmental impacts, improving resource efficiency, complying with applicable legal and regulatory requirements and continually improving our environmental performance. Our commitment to Water Stewardship is supported by measurable targets and goals defined, with progress reviewed annually against the established baselines. VP - ESG & DEI leads implementation with support from cross-functional teams at all plant sites.

Policy Commitments

- Comply with all applicable local, national, and international water-related laws and regulations
- Prevent water pollution and safeguard water quality through responsible use, treatment, and discharge
- Continuously monitor, review, and improve water management performance
- Reduce overall water consumption and minimize the Company's water footprint
- Enhance water recycling and reuse across operational locations
- Improve water-use efficiency through process optimization and technological interventions
- Promote sustainable water-use practices among employees and relevant stakeholders
- Identify, assess, and mitigate water-related risks to business operations

Implementation Measures

- Establish short-, mid-, and long-term targets to reduce freshwater intake per unit of production
- Monitor and track water withdrawal, consumption, recycling, and discharge at all facilities
- Maximize the reuse of treated wastewater through in-house systems or authorized third-party facilities
- Ensure all wastewater treatment and discharge meet applicable regulatory standards
- Conduct periodic water audits and implement corrective and improvement actions
- Drive employee awareness and training programs on responsible water management

This policy shall be communicated across the organization and reviewed periodically to ensure its continued relevance, effectiveness, and alignment with business objectives.

We are committed to complying with all applicable laws and aligning with recognized international standards to strengthen ESG performance, ensure transparent, comparable reporting, and build stakeholder trust. Progress is reviewed annually through internal governance and reported via established channels in line with regulations, stakeholder expectations, and industry practices. We also actively engage key stakeholders - including employees, investors, customers, suppliers, and communities - to understand their expectations, foster trust, and communicate our ongoing efforts and performance in advancing responsible, sustainable business practices. Sigachi monitors Environmental performance against defined targets, aligns disclosures with recognized frameworks.
